— for families, plan managers and support coordinators.

ABOUT THIS SCHEDULE

Support at Home, simply priced.

Under the Support at Home program, we provide a range of supports designed to help people live safely, independently, and in a way that feels meaningful to them.

This includes nursing, allied health, personal care, and everyday supports, all delivered with a focus on consistency, trust, and genuine connection.

Our services are shaped around your needs, preferences and available funding, ensuring support feels personal, flexible, and aligned to what matters most in your day-to-day life.

CARE MANAGEMENT

Lyft Community will work with you to create a care plan that reflects your needs, goals, and what matters most to you. We take the time to get to know you, help you choose the right supports, and check in regularly to ensure everything continues to feel right.

In line with government guidelines, a portion of your funding is used for care management and coordination. This fee is included to help us coordinate your services, manage your care plan, and provide ongoing support. For restorative care, care management activities are charged separately at the rates outlined below.
